

2011

Lasertec was awarded the “Best Partner Prize”  
by Samsung Electronics Co. Ltd.

On April 8<sup>th</sup>, 2011, Lasertec was awarded the “Best Partner Prize” by Samsung Electronics Co. Ltd. who is one of the biggest leaders in manufacturing and sales of semiconductor devices in the world. This prize is awarded to the companies who most remarkably contributed to the success of Samsung’s business after selection among parts and manufacturing tool makers in the world.

The prize this time was awarded for significantly contributing to the accomplishment of zero accident in haze and quality of photomasks established by our Semiconductor Photomask Inspection System MATRICES X700 Series. We keep exerting our efforts in contributing to productivity and quality improvements at customers.
